LICENSED IN ALASKA FOR 10 YEARS

Political Observations

Many people believe that the wages paid to the legislators in the New State of Alaska are the highest of any of the other 48 states. Here are the facts.

The highest is the state of New York they pay \$15,000 per year, a round trip home per week and \$1,000 expense allowance. The following states pay \$10,000 or over—California, Illinois, Massachusetts, New Jersey and Ohio. In the state of Louisiana the pay is \$50.00 per day and \$150.00 per month when not in session and eight round trips home. Now here is the one that is interesting—in Puerto Rico they get \$6,000 per year, a round-trip home per week \$15.00 per day when in session and \$400.00 for telephone, telegrams and etc.

For the 80 days we were in session plus our yearly pay we receive \$6,200.00 and one round-trip.

Then if you take the value of the dollar in Alaska as compared to the other states, we end up with about \$4,000.00. Not one person I have talked to yet know these facts. I hope we will soon in Alaska start judging our decision based on facts.

Sunday and Monday

As a story, "The Naked and the Dead" sold more than 7,000,000 copies. Transferred to the screen, the story, though not completely intact is probably more dramatic, and just as real.

In it are starred Aldo Ray, Cliff Robertson, Raymond Massey, Lili St. Cyr and Barbara Nichols. The film was produced by Paul Gregory, and was directed by Raoul Walsh, from the novel by Norman Mailer.

The story is centered around an Army platoon making a beach landing, as it invades a Japanese-held jungle island.

Tuesday and Wednesday

Sterling Hayden and Anita Ekberg star in the film "Valerie," which unfolds a drama of murder, lust and violence in a small Western town just after the war between the States. Starring also is Anthony Steel.

In "Valerie," Anita portrays a beautiful Austrian girl who comes to America with her parents five years after the end of the Civil War and settles in a small Western town, where she becomes the central figure in her husband's murder trial.

On the same billing, the science-fiction thriller, "The Night the World Exploded." In it are such fantastic scenes as volcanoes springing out of the earth, cities crumbling, trains smashed, mountains disappearing, with mighty earthquakes erupting, spreading death and destruction everywhere.

Thursday and Friday

Warner Bros' "Home Before Dark," shows a famous landmark of Marblehead, Mass., the famed Lafayette House. It is the home of Charlotte Bronn, played by Jean Simmons. Lafayette House derives its name and is historically noted for the "cut-off-corner" where the building was altered to permit Lafayette's carriage to make the turn of the narrow street.

Starring besides Jean Simmons, Dan O'Herlihy, Rhonda Fleming and Efrem Zimbalist, Jr., "Home Before Dark" was produced from the much-discussed best-selling novel by Eileen Bassing and concerns the struggle of a young wife to keep her husband and her sanity when threatened with losing both.
